

IMPORTANT - COVID-19 VACCINATION CLINIC – UPDATE 5 March 2021

We now have next vaccine delivery confirmed and so will resume inviting patients in **Group 6** (16-64 years of age with underlying health problems) .

If you are in **Group 6** (16-64 years of age with underlying health problems) and have received a text message invitation but can't book using the link, please call the booking line on 07591 298318.

If you are in **Groups 1 to 4** (over 70 years of age or are shielding) and have not yet been vaccinated, please call the booking line on 07591 298318.

PLEASE DO NOT CALL THIS NUMBER IF YOU ARE NOT IN THE GROUPS ABOVE.

We are aware that **Group 7** (patients with no underlying conditions aged between 60-64 years) have been called by the national recall service to mass vaccination centres and some of these locations are not local. We are **not** able to offer vaccinations at our location for patients in **Group 7**. Please do not call us as we cannot offer Group 7 patients an appointment and the additional telephone calls are affecting access for other patients.

Please be patient and do not call your surgery with requests for a COVID vaccination appointment. Please review this page on a regular basis as we will post updates here as soon as we have further information.
